At JSW Infrastructure, Information is our most valuable asset and protecting this is mission-critical for our business operations.

Management at JSW Infrastructure demonstrates a strong commitment towards cybersecurity. It strives to continuously review and provide the necessary means to strengthen the cyber security posture and safeguard JSW assets.

### ***Cyber Security Scope***

The policy applies to all business operations at JSW Infrastructure including information and business assets hosted across all geographies. This is applicable to employees, consultants, contractors, associates, suppliers / third-party personnel having access to JSW Infrastructure information assets.

### **Cyber Security Policy Statement JSW Infrastructure will**

- Consistently thrive to upgrade technology, systems and processes to be ahead of the curve from cyber security perspective.
- Continuously protect internal information and information related to suppliers, customers, business partners and other stakeholders from unauthorized access, disclosure and/or modification.

Ensure compliance with applicable regulatory, legal requirements and Information security management system.

- Apply effective risk management framework to identify and treat current and emerging risks to JSW's business with potential to disrupt operations and/or brand reputation.
- Ensure that all Business Heads / Department Heads are directly responsible for ensuring compliance with JSW's Information security policy in their respective business domains.
- Ensure that information is protected against known and future cyber security threats by designing, implementing, and continually improving security controls.
- Shall periodically review the effectiveness of the cyber security controls deployed and take corrective and preventative actions to improve the posture.
